EXAMINER'S AMENDMENT

Election/Restrictions

1. Claims 16-18 withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on October 8, 2004. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Kevin Perkins, Esq. (Reg. No. 36,634) on April 22, 2005.

3. The application has been amended as follows:

Please cancel claims 16-18.

4. The following is an examiner's statement of reasons for allowance: The prior art references of record do not teach (alone or in combination) all the limitations together, within the independent claims 1, 10, 20 and 26. For example, the independent claims contain limitations of a socket allocated from a shared memory region, wherein the socket is not bound to any specific destination address and is used by a series of calls to establish a connection between processes residing separately within the environment of the instant independent claims. Applicants' arguments [Remarks, filed July 22, 2004, pgs. 12] have been fully considered and are persuasive to the limitations of claimed over the prior art of record. As shown in the instant independent claims and page 12 of Remarks and the arguments toward the Hutton and Hwang references (alone or in combination) do not disclose or suggest all the limitations within the instant independent claimed invention. Therefore, the combination of the limitations is allowable subject matter, in light of the specification [pg 16-17] and in view of the Applicants' persuasive arguments. The independent claims 1, 10, 20 and 26 (and their dependent claims) are allowable, since the claim language discloses this combination of limitations over the prior art of record.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Claims 1, 3, 5, 8-15, 20 and 22-26 are allowed.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason D. Cardone whose telephone number is (571) 272-3933. The examiner can normally be reached on Mon.-Thu. (6AM-3PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Valencia Martin-Wallace can be reached on (571) 272-6159. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
